

Bottle Filling Station

Sensor-activated, no touch, smart technology

newport

a little about
our
bottle
filling
station

The bottle filling station brings peace of mind and safety to a very hygiene-conscious world today. With its touchless, sensor-activated technology, the bottle filling station takes the traditional fountain cooler up a notch.

Bottle filling stations provide convenient, sustainable and healthy hydration, without the use of the water fountain. They are ideal for environments both indoor and outdoor.

Key Features:

- Sensor-activated
- Touchless
- Smart technology
- Minimal splashing
- Hermetically sealed refrigeration
- NSF certified filter
- LED Filter status light
- 12" wall projection

Filling Bottles, Not Landfills

Clean water within reach

LED Filter Status Light

The LED lights on the bottle filling station indicate the filter status.

- Green: The filter is doing its job, providing you with a cleaner, fresher drink.
- Yellow: The water is still being filtered but will need to be replaced shortly.
- Red: The filter has reached 100% of its usable life and should be replaced promptly.

Antimicrobial Protection

Key plastic components on the unit have a special silver ion antimicrobial protection that inhibits the growth of mold and mildew.

See bottles saved

Exclusive Green Ticker™ informs user of number of 20 oz. plastic water bottles saved from waste by using refillable bottles at the bottle filling station.

Hands-free Operation

The touchless, sensor-activated bottle filler is designed for easy use. There's no need to hold the bottle just place and fill.

Minimal Splashing

Bottle filler dispenses a clean, laminar flow of water so there is minimal splashing when filling reusable bottles and cups.

Ideal for installations with limited space

Smart and efficient!

Finish	Light Grey Granite
Power	110V 50/60Hz
Dimensions	11.89"W x 17.89"D x 41.25"H

your choice...
**purchase
or subscribe**

Our bottle filling stations are available for purchase but we're also passionate about saving our clients the hassle of maintenance and we LOVE long-term partnerships, so we've developed a cost-effective solution.

our all-inclusive subscription package

We've simplified your life by offering a low cost subscription fee which is deducted monthly from your credit card.

It includes servicing, maintenance, break/fix service calls, filtration changes and much more.

These services are managed via software and are carried out by our team of dedicated technicians.

Replacement CO₂ cylinders for sparkling water combinations are not included in pricing. Initial cylinder is provided.
