a little about U2 tap systems

The U2 tap system is unrivalled in its performance. It can dispense up to three flows of water - Chilled and Ambient, Chilled and Sparkling or Chilled, Ambient and Sparkling.

This innovative tap system brings a high capacity refreshment solution to any commercial venture. We built it to be intuitive to use and to require minimal maintenance. Simplicity in execution.

Available in Twin Head Tap and Triple Head Tap configurations

Key Features:

- Stainless steel
- Robust, solid build quality
- Simple to operate and maintain
- Aesthetically striking
- Compact undercounter unit
- Starts at 15 litres per hour capacity
- Optional drip tray

your choice... purchase or subscribe

Our taps are available for purchase but we're also passionate about saving our clients the hassle of maintenance and we LOVE long-term partnerships, so we've developed a cost-effective solution.

our all-inclusive subscription package

We've simplified your life by offering a low cost subscription fee which is deducted monthly from your credit card.

It includes servicing, maintenance, break/fix service calls, filtration changes and much more.

These services are managed via software and are carried out by our team of dedicated technicians.

Replacement CO₂ cylinders for sparkling water combinations are not included in pricing. Initial cylinder is provided.
